AND INNOVATION  
SINCE 1888

BOLLÉ  
VISION  
BEYOND

# VISION BEYOND

WORN  
BY THE BEST

AT BOLLÉ, WE DON'T CLAIM WE ARE GOING TO SAVE THE PLANET, BUT WE DO STRIVE TO REDUCE OUR IMPACT.

AS ONE OF THE LEADERS IN THE TOPIC, BOLLÉ LAUNCHES 5 NEW ECO-DESIGNED MODELS, THE BLACKRIDGE GOGGLE AND THE 4 KEYSTONE FAMILY HELMETS, BRINGING THE ECO-DESIGNED\* APPROACH ON 16 MODELS. SUPPORTED BY A GLOBAL CAMPAIGN CALLED "REACT FOR GOOD", BOLLÉ'S SUSTAINABLE APPROACH HAS AN AMBITIOUS GOAL OF 90% OF THE RANGE BEING ECO-DESIGNED BY 2027. ALL DETAILS AND INFO CAN BE FOUND IN THE COMPANY'S NEW SUSTAINABLE DEVELOPMENT REPORT RELEASED EARLIER THIS YEAR.

AND ALL THIS IS BROUGHT TO YOU IN A 100% ECO-DESIGNED PACKAGING.

\*ACCORDING TO BOLLÉ ECO-FRIENDLY CRITERIA (SEE BOLLÉ BRANDS ESG POLICY)

**PHOTOCHROMIC PERFORMANCE**

Phantom lens technology achieves a wide range of visible light transmission, ensuring precise visual acuity in all weather conditions, including the most extreme. Our lens tint reaches **70% of its full activation within 20 seconds.**

**PROTECTIVE COATING**

A true reference in the world of eye protection, Bollé Safety offers protective glasses trusted by professional workers in demanding industries like automotive, construction, mining, or pharmaceutical.

◆ **PLATINUM** represents the highest level of expertise in anti-fog and anti-scratch protection.

With **Phantom and Phantom+**, Bollé brings this expertise to everyone combining a higher performing anti-fog with an anti-scratch that is 40% more durable than the standard.

**HIGH IMPACT RESISTANCE**

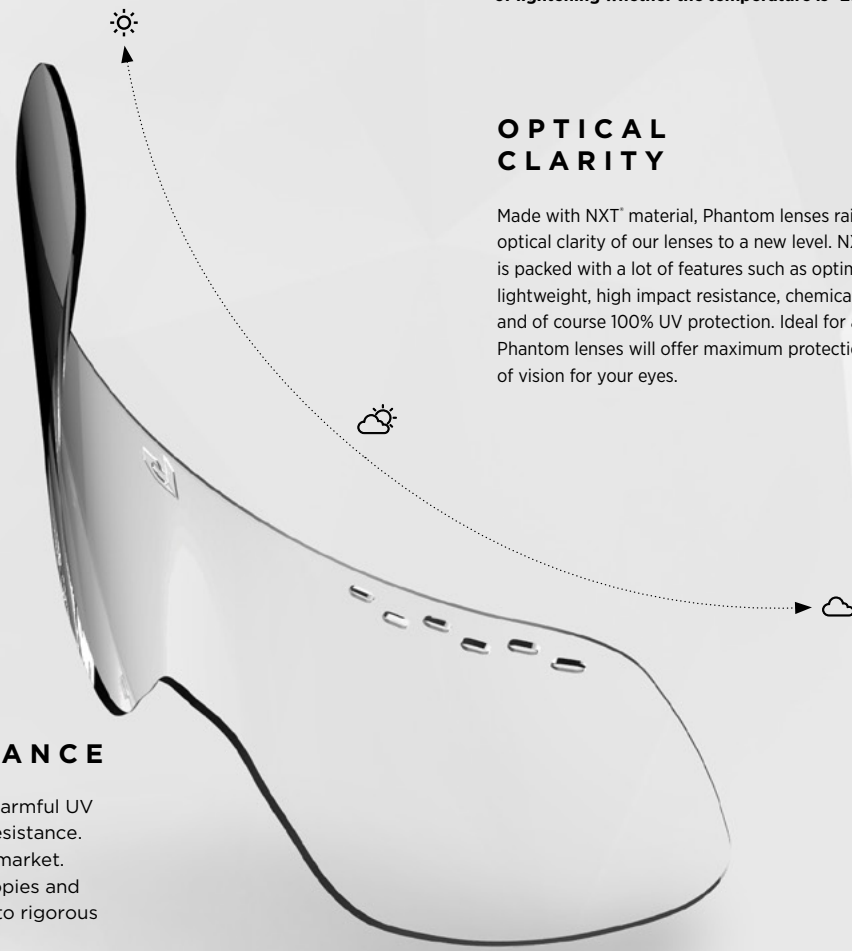

NXT<sup>™</sup> lenses not only protect you 100% from harmful UV rays, but are also built for maximum impact resistance. NXT<sup>™</sup> is one of the strongest materials on the market. Originally adapted from military use - jet canopies and helicopter windshields - lenses are subjected to rigorous high-velocity impact tests.

**STABILITY**

Bollé has advanced the performance of photochromic technology to an entirely new level. The Phantom lens with exclusive LTS Technology (Low Temperature Sensitivity), delivers improved activation, **darkening or lightening whether the temperature is -25°C or 5°C.**

**OPTICAL CLARITY**

Made with NXT<sup>™</sup> material, Phantom lenses raise the optical clarity of our lenses to a new level. NXT<sup>™</sup> material is packed with a lot of features such as optimal clarity, lightweight, high impact resistance, chemical resistance, and of course 100% UV protection. Ideal for a sport use, Phantom lenses will offer maximum protection & comfort of vision for your eyes.

**POLARIZATION**

Polarized lenses are largely recognized today for their benefits in terms of blocking reflected glare. So it felt right to add them to our already unbeatable lens technology to improve its performance by yet another step. Equipped with Phantom+ lenses, you will be ready to take on any adventure.

**VISION ENHANCEMENT**

The Bollé 50% polarized film works like a moderately dense net that reduces distracting glare while getting enough light transmission through the lens in order to distinguish ice from snow. Phantom+ equipped with this technology offers an optimized reading of the terrain while reducing eye fatigue.

**REVOLUTIONARY COLOR ENHANCEMENT**

THE FIRST LENS EVER DEVELOPED WITH ARTIFICIAL INTELLIGENCE

1. Find out which wavelengths to enhance or dampen
2. Design and develop the chemical compounds (pigments) that will absorb the right wavelengths
3. Put together the perfect blend of pigments for the transmission curve we want to achieve

4 MILLION COMBINATIONS EVALUATED, 1 UNIQUE FORMULA

Radically sharp, the BLACKRIDGE is designed for avid riders seeking a bold freeride look. Its cylindrical, frameless design and high-volume construction deliver a maximized field of vision, while the articulated outriggers and 3D foam ensure a perfect fit with any helmet. Equipped with the Phantom photochromic cat. 0 to 4 lens, this goggle automatically adapts to changing light conditions, providing unmatched clarity and protection in all environments. As part of our "React for Good" program, the BLACKRIDGE's frame, adjusters, and strap are made of recycled material.

# CLEAR

Protect your eyes during night or foggy conditions.

# YELLOW

Ideal for low light conditions, yellow lenses enhance depth perception for improved visibility.

# PINK

Excellent for a variety of conditions, pink lenses maximize colour definition and depth perception.

# AMBER

Great for bright light conditions, amber lenses manage yellow light for optimal comfort.

# BROWN

Ideal for sunny conditions, brown lenses amplify color contrast and deliver superior visual definition.

# GREY

Grey lenses maintain natural color perception, ideal for bright light conditions.

Designed for riders who need a touring-ready solution at hand, the YPSOS MIPS is an ultra-lightweight helmet, certified for both alpine skiing and climbing. Experience safe and comfortable skiing thanks to high-performance features such as the Top Strike PC shield, removable headlamp clips and earpads, and a thermoregulating merino-lyocell lining. Equipped with Mips for optimal safety, the YPSOS MIPS benefits from our eco-design approach with the plastic and fabric parts made from recycled materials.

Fly on the wild side with the KEYSTONE MIPS, designed to meet every demand of top freeride skiers and snowboarders. Featuring a minimalist design with an integrated brim and elastic goggle retainer for a seamless fit, this helmet comes in a wide range of colours to complement any outfit. As part of our "React for Good" program, it's Bollé's first hardshell helmet made of recycled material, offering both durability and comfort. Equipped with the Mips® multi-directional impact protection system, it also incorporates AVID Progressive EPS for enhanced protection.

Forget everything you know about visor helmets with the X-FUSION MIPS. Redefining the standards with its fully integrated photochromic visor, the X-Fusion system allows for a flawless harmony between the helmet and the visor, including for people wearing ophthalmic glasses. Offering a wide field of view under any type of weather condition, it also provides exceptional comfort and a perfect fit thanks to its Fidlock magnetic buckle, its BOA fit system, and its padding in merino-lyocell. Equipped with Mips for optimal safety, the X-FUSION MIPS benefits from our eco-design approach with the visor, plastic and fabric parts made from recycled materials.
